

## LEAP- Product Intern

### About the role

We at Leap are looking to hire an intern for our Product team. It is a multifaceted and critical position that involves working closely with the Senior Leaders for driving special projects.

### Key Responsibilities

- Work closely with the senior leaders turning concepts into tangible achievement
- Dive into industry trends, discover competitor insights while also working on user research.
- Build a hypothesis to solve the different problem statements, execute, validate and scale the results.
- Align with stakeholders across the org to drive the actionables; be a driving force in cross-functional teams.
- Assist in presenting findings, recommendations, and progress updates to leadership.
- Support key projects and initiatives, ensuring they are on track and aligned with the company's objectives.

### Qualifications

- Prior experience in interning at a start-up.
- Good communication and presentation skills, both written and verbal.
- Ability to work collaboratively and effectively with diverse teams and stakeholders.
- High on agency with first principle problem solving approach

### Location - Bangalore

#### *What is Leap?*

We are building this and this

In short, we are building the platform to drive global careers for millennials from emerging economies

We work at the exciting intersection of the 2 hottest trends around - edtech & fintech!

And we love that we succeed as a business while powering the dreams of talented students!

#### *How far along are we?*

We are the leaders in our space by a mile!

We are backed by Sequoia, Jungle Ventures, Owl Ventures & Harvard! Read the latest fundraising news here

#### *Who are we as people?*

We have a lean, rockstar team.

We have come this far with a lean team because we love to increase talent density with every new member we add. Yes, we are pickier than the usual company.

We hire slowly and deliberately.

You can meet our founders here -> Arnav Kumar and Vaibhav Singh Arnav tweets here

This is a great time to join the rocketship and participate in the upside.

*What's in it for you?*

- You will have tearing-your-hair-level complex & challenging problems to solve
- Contribute to meaningful projects that directly impact the company's success.
- Super fast-paced environment that will challenge you
- Enough resources to play offence
- Mentorship from the founding team Your move! :)
