

## **Role: Full Stack Developer**

Location: Whitefield, Bangalore

Experience: 0-1

Educational Qualification: B.Tech Computer Science & Engineering

## **Job Summary:-**

We are looking for enthusiastic and driven **Full Stack Developers** to join our Product team. As a fresher, you will have the opportunity to learn and contribute across the entire software development lifecycle—designing, developing, testing, and deploying applications using modern technologies and agile practices.

You'll be part of a fast-paced environment, working closely with experienced engineers on real-world projects that have a direct impact. If you love solving complex problems, enjoy working with the latest tech stacks, and are eager to build scalable, high-performance systems, this is the right place for you.

## **What You'll Learn & Do:**

- Build end-to-end microservices and web applications using Python, Node.js, React, and Golang
- Work with cloud platforms like AWS and container tools like Docker & Kubernetes
- Get hands-on experience with databases like MySQL, MongoDB, and Redis
- Learn best practices in code versioning (Git), testing, and CI/CD pipelines (Jenkins, Maven)
- Collaborate in an agile environment with a focus on clean, maintainable, and well-tested code
- Participate in system design discussions and contribute to building high-performance systems

## What We're Looking For:

- Strong understanding of Data Structures, Algorithms, and Problem Solving
- Familiarity with one or more programming languages: Python, JavaScript, Golang, or Node.js
- Basic knowledge of web technologies like HTML, CSS, JavaScript, React
- Good understanding of databases and ability to write simple queries
- Exposure to Git or any version control system
- Interest in learning DevOps tools, cloud technologies (AWS), and agile practices
- Ability to work in a team and communicate ideas clearly

## Bonus Points (Nice to Have):

- Projects or internships involving full-stack development
- Exposure to Unix/Linux systems and scripting
- Awareness of how trading or finance systems work (not mandatory)

## Why Join Us?

- Be part of a high-impact team in one of the fastest-paced sectors – HFT
- Access to mentoring, training, and growth opportunities
- Work with cutting-edge technologies and a collaborative team
- Competitive salary and benefits for freshers
